ABOUT

I am a developer with 4 years of experience in Microsoft technologies. I am specialized in full-stack, highly scalable, real-time JavaScript and .NET Core, Xamarin applications. I love taking challenges and writing efficient code to solve complex problems.

EXPERIENCE

Software Developer - Samurai Systems , Dhaka Bangladesh, Aug 2016 - Present
- Developed back-end for Samurai Screen digital signage networks.
- Developed companion app for their digital signage devices.
- Developed back-end api for Adfenix Leads and helped in the deployment process.
- Developed features for Review Flakes back-end.

EXPERTISE

C#/.NET, Xamarin, .NET core, ASP.NET web API, Angular, MongoDB, Cosmos Db, RabbitMQ

PROJECTS

SamuraiScreen.com - http://samuraiscreen.com
Advertising network for wireless, real-time, scalable, end to end digital signage solutions targeted for growing signage market in Germany. It can deliver content to millions of devices and monitor their performance and health no matter where the screens are located.
Technologies - Angular, ASP.NET Web API 2, RabbitMQ , OAuth - 2, Redis, MongoDB.

Samurai Player
Android application that plays contents created using samurai content delivery software and sends device performance to the server for monitoring.
Technologies - Xamarin Forms, SignalR.

Review Flakes
A platform for collecting reviews from customers and calculating score based on reviews to increase transparency between business and customer.
Technologies - Angular, ASP.NET Web API 2, RabbitMQ, OAuth - 2, Redis, MongoDB.

Adfenix Leads (Adfenix/Sweden)
A tool which is developed for automated real estate agent's daily enquiries from customers and sends autoresponders to save agent's valuable time and generates qualified leads.
Technologies - .NET core, Angular, Docker, RabbitMQ, MongoDB, Zapier.

PERSONAL PROJECTS

Stupis Screens - https://play.google.com/store/apps/details?id=com.stupios.stupisscreens
Android application that allows users to generate and edit unique graphics for their home screen using skia sharp. Stupis screens have crossed the 50k download mark on playstore.
Technologies - Xamarin Android, Skia.

Stupis Screens Backend - Backend application that generates and verifies coupon codes, provides graphical models for Stupis Screens.
Technologies - .NET core, Angular.

Win screens - https://www.microsoft.com/en-us/p/win-screens/9nblggh6htm6
Windows store application that allows users to customize their windows device's lock screen with useful widgets such as notification, weather etc.
Technologies - UWP, Win 2D.

EDUCATION
Computer Science and Engineering - University of Liberal Arts Bangladesh.

HOBBIES AND INTEREST
Reading and watching stuff about ancient civilizations and space, sketching, reading articles about new things.
